Languages

- English
- Japanese (N4)

Objective

A highly skilled and experienced Laravel+Vue Developer with a proven track record of developing high-quality web applications. Seeking a Laravel developer position to contribute my expertise in Laravel, Vue.js, and other web technologies to build innovative and efficient web solutions.

Skills

- Strong proficiency in PHP, Laravel, and Vue.js, including experience with javascript, jQuery, Ajax, Bootstrap and Tailwind.
- Solid understanding of web development principles, object-oriented programming (OOP), and design patterns.
- Proficient in front-end technologies such as HTML5, CSS3, JavaScript, and jQuery, with experience in responsive web design and cross-browser compatibility.
- Extensive experience in building RESTful APIs.
- Deep understanding of database management systems, such as MySQL, with expertise in database design, and query optimization.
- Familiarity with version control systems such as Git, and experience in agile development methodologies.
- Ability to troubleshoot and debug complex issues, and continuously learn and adapt to new technologies and best practices.
- Excellent communication and collaboration skills, with the ability to work independently and in a team environment.

Work Experience - 01

Junior Backend Developer (Host Myanmar)

2022-2023

- Developed and maintained web applications using PHP, Laravel, Vue.js, and other web technologies, meeting project requirements and delivering high-quality code on time.
- Implemented front-end features and functionality using HTML, CSS, JavaScript, and jQuery.
- Assisted in database design, optimization, and performance tuning to enhance application performance.
- Resolved complex technical issues and provided timely solutions to ensure smooth project delivery.

Work Experience - 02

Fullstack Developer (itGateway)

2023-2024

- Created and enhanced frontend projects, focusing on user interface and user experience.
- Designed and implemented e-commerce platforms, integrating payment services, order system and delivery system.
- Developed ERP systems tailored to specific business requirements, optimizing workflow and data management.
- Performed web deployment using AWS EC2 and DigitalOcean instances, configuring Ubuntu OS environments for robust performance.
- Collaborated with clients to gather requirements, provide technical guidance, and deliver high-quality software solutions.
- Utilized version control systems (e.g., Git) to manage codebase and collaborate effectively with team members.

Dear Sir,

I am writing to express my interest in the Full Stack Developer position at your company. With over 2 years of experience in full-stack development, specializing in PHP, Laravel, and Vue.js, I have confident in my ability to contribute effectively to your team and help your company achieve its technological and business objectives.

In my previous role, I successfully led the development of several high-impact projects, including e-commerce platforms, ERP systems, and web applications. My expertise in PHP and the Laravel framework has allowed me to build robust and scalable backend systems, while my proficiency in Vue.js has enabled me to create dynamic and responsive front-end interfaces. I am particularly skilled in:

- **PHP & Laravel:** Developing and maintaining RESTful APIs, integrating third-party services, and ensuring data integrity and security.
- **Vue.js:** Building interactive and user-friendly interfaces, implementing state management with Vuex, and optimizing front-end performance.
- **Database Management:** Designing and managing relational databases (MySQL, PostgreSQL) and optimizing queries for performance.
- **DevOps:** Deploying and managing applications on AWS EC2 and DigitalOcean instances, configuring CI/CD pipelines, and ensuring high availability and scalability.

I am eager to bring my technical acumen and comprehensive experience to your dynamic team, and I believe that my proactive approach to team collaboration and dedication to software excellence will be an asset to your department. An opportunity to further discuss how my skills and experience align with the goals of your company would be most welcome.

Thank you for considering my application. I look forward to the opportunity to discuss how my background skills align with the needs of your team. Please feel free to contact me via email at wailinhtetaung007@gmail.com to schedule an interview.

Sincerely,

Wai Linn Htet Aung
